COMPUTER SCIENCE LEARNING CENTER

THE INTERNATIONAL MASTER MENTORING-PROGRAM IN CS

Dietrich Gerstenberger

Computer Science Learning Center

Mentors for our new international Master students

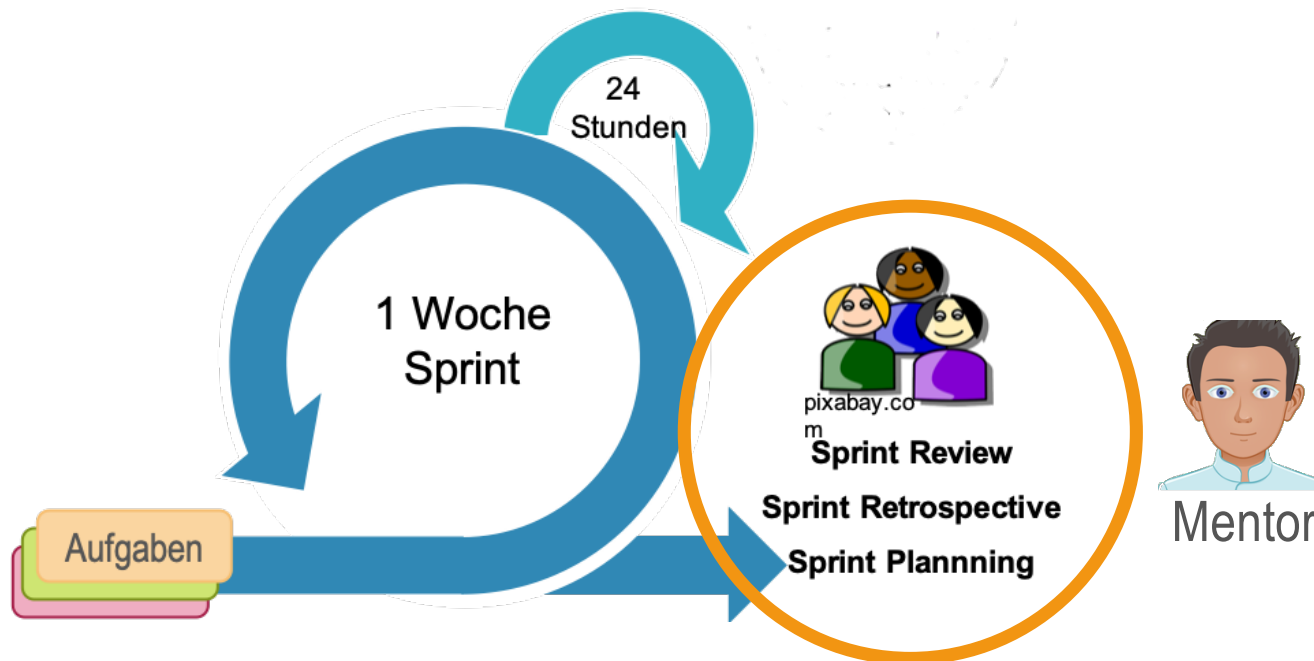

All freshman students have the opportunity to meet once a week in groups with an experienced mentor.

Computer Science Learning Center

Mentors for our new international Master students

Your meeting is a combination of Sprint Review, Sprint Retrospective and Sprint Planning:

The weekly meeting

(1) Sprint Review

Scrum: „the team shows what it has achieved within the sprint“

- how did the last week go?
- could all exercises be done?
- have consultation hours been used to clarify problems?
- have the discussed ToDo's been implemented?
- . . .

The weekly meeting

(2) Sprint Retrospective

Scrum: „what went good or bad?
what could you do to make the next sprint more productive?“

- what went well?
- what went bad?
- on the latter point: the question of ‚why‘ ?
- how can this be improved?
 - note down concrete ToDo's and ask for them again in the review next week.

The weekly meeting

(3) Sprint Planning

Scrum: „Together, both sides determine which part of the product backlog the team can complete in the upcoming sprint.“

- discuss routine tasks
- ToDo's from the retrospective are also part of the weekly planning
- there are special events in the following week
 - registrations / cancellations
 - consultation hours
 - Workshops
 - . . .
